SUGGESTS TAXATION FOR BUILDING BRIDGE

ACROSS SAVANNAH RIVER TO CONNECT ANDERSON CO. AND HART CO. GA.

WANTS CHANGES

In County Government and Want Two Commissioners Instead of Four As is At Present.

The final presentation of the grand jury was made yesterday afternoon at 3 o'clock. This presentation is rather long and contains many recommendations that will be of much interest to the people generally.

The presentation is as follows: To His Honor, Ernest Moore, Presiding Judge Tenth Judicial Circuit:

We, the members of the grand jury, beg to make this our final presentation for the year 1915:

We have passed on bills that have been given us, and have acted on all other business that has come before us.

The committee of our body appointed to investigate conditions at the county home reports that it has personally visited the home and finds everything in excellent condition. The affairs of the institution are well managed, and the inmates appear to be well satisfied with the treatment given them.

The county chancery has been inspected by a committee of our body, and we find that the prisoners are well treated and that no complaints of any kind are being made as to its management.

We have inspected the county jail through a committee of our body, and we find it well managed by the sheriff, who, however, is seriously handicapped by lack of room for the proper care of the prisoners. Some relief will have to be provided in time, but as we are making a final presentation and have concluded all the work that can be done by the present grand jury, we leave the matter to our successors to make such recommendations as they may see fit in the circumstances.

The roads and bridges of the county appear to be in good condition, and we have no complaints of a serious nature to call to the attention of the court.

We have examined, through a committee of the grand jury, the books and accounts of the county officials. We find their books in good shape, and we desire to commend all these officials for their diligence in the discharge of their public duties and for their well kept systems of bookkeeping.

We desire to call the attention of the magistrates of the county to the law requiring them to present their books for examination and inspection. At this term of the court, which is our final term, only four of the twenty-two magistrates in the county have brought their books in to the committee appointed by us to inspect them.

General complaint has come to us from all portions of the county that the iron rails at railroad crossings project two or three inches above the level of the ground and are causing much damage to the tires of vehicles. There is complaint, too, about the growth of bushes and vegetation about the crossings, which obstruct the view and increase the danger of accident to people crossing the tracks. We recommend that the county board of commissioners take up these matters at once with the proper railroad authorities so that relief may be procured for the protection of the public.

We recommend that the act establishing the present board of county commissioners be repealed and that the county return to the former system of two commissioners to act with the supervisor. We would recommend further that a reasonable increase in the salary of the supervisor be made and that he be required to give his entire time to the duties of his office.

After dearing the report of Miss Jane Garret, who is in charge of the girls' demonstration club work for Anderson county, we desire to go on record as endorsing the good work she is doing, and we would urge the necessity of full and hearty cooperation between this work and that of the county superintendent of education. We also cordially endorse the work of Mr. Dyar, farm demonstration agent for the county.

A communication from us was sent to us making complaint about the condition of the mess hall prevailing in that community. We have investigated this matter thoroughly and have presented bills of indictment against the parties accused.

For several years it has been recognized as one of the urgent needs of two progressive counties that a substantial bridge be constructed across Savannah river, or near one of the most direct roads between Anderson and Hart counties. The very best method of transportation back and forth across the river is by the use of a pole bridge, and this is a fact that is well known to the people of both counties. We are, therefore, presenting a bill of indictment against the majority of the farmers and merchants in the counties of Hart and Georgia, and especially in Anderson county, that a bridge such as the one shown in the accompanying illustration be constructed, and that the people of both counties be required to contribute to the cost of its construction. We are, therefore, presenting a bill of indictment against the majority of the farmers and merchants in the counties of Hart and Georgia, and especially in Anderson county, that a bridge such as the one shown in the accompanying illustration be constructed, and that the people of both counties be required to contribute to the cost of its construction.

bridge, and we therefore unanimously recommend that the Anderson county delegation provide at the next session of the general assembly for the raising of sufficient funds by taxation to meet one-half of the cost of such bridge, the said bridge to be built as soon as practicable.

In this connection, we recommend that the county board of commissioners get in touch with the proper authorities of Hart county, Georgia, and agree on the plan, cost and location of this proposed bridge and submit said information to the Anderson county delegation for action at the next session of the general assembly.

We desire the great number of homicide cases at this term of the court, and during the year, and we feel that there must be a stricter enforcement of the law to check this serious tendency towards crime. Human life is held too cheaply, and we attribute this shocking fact to two primary causes—the habit of carrying pistols and the unlawful traffic in whiskey. As these two evils are the main sources of much of our crime, especially in cases of murder, it is our deliberate conclusion that the penalty for the two offenses mentioned must be increased. A mere fine will not break up these evils, and we would urge that the statutes be changed so as to provide for a chaining sentence only after the first conviction and that on the first conviction the penalty by way of

both fine and imprisonment be increased.

In conclusion, we beg to thank the court and all the court officials for courtesies extended to us in the discharge of our duties.

Respectfully submitted,
Jas. R. Anderson,
Foreman.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Little of this fragrant, antiseptic cream in your nostrils, and your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no yawning, sneezing, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and catarrh sufferers need. Don't stay stuffed-up and miserable.

It is just what every cold and relief comes instantly.

UGH! CALOMEL MAKES YOU SICK. DON'T STAY BILIOUS, CONSTIPATED

"Dodson's Liver Tonic" Will Clean Your Stagnant Liver Better Than Calomel and Can Not Sicken.

Calomel makes you sick; you lose a day's work. Calomel is quick-acting and it siccifies; calomel injures your liver. If you are bilious; feel lazy, sluggish and all knocked out, if your bowels are constipated and your head aches or stomach is sour, just take a spoonful of Dodson's Liver Tonic instead of using calomel; calomel, calomel, calomel! Dodson's Liver Tonic is real liver medicine. You'll know it in the morning because you will wake up feeling fine; your liver will be working; your head aches and dizziness gone; your stomach will be sweet and bowels regular. You will feel like working. You'll be cheerful, full of energy, vigor and ambition.

Your druggist or dealer tells you a 50-cent bottle of Dodson's Liver Tonic under my personal guarantee that it will clean your sluggish liver better than nasty calomel; it won't make you sick and you can eat anything you want without being siccified. Your druggist guarantees that each spoonful will start your liver; clean your bowels and straighten you up by morning or you get your money back. Children gladly take Dodson's Liver Tonic because it is pleasant tasting and doesn't grip or cramp or make them sick. I am selling millions of bottles of Dodson's Liver Tonic to people who have found that this pleasant, vegetable liver medicine takes the place of dangerous calomel. Try one bottle on my sound, reliable guarantee. Ask your druggist about it.

A WONDERFUL OPPORTUNITY

The C. M. Sullivan estate owns a farm of 700 acres seventy miles West of Augusta, Ga., which they have put in our hands for sale. Mrs. Sullivan cannot handle the property. She would take Anderson County property in part payment.

It lies within, say, two miles of a nice town in which there is a bank, a large cotton warehouse, quite a number of prosperous stores, a large flourishing school with several teachers.

A splendid public road made of sand and clay runs through the property. The roads are all graded and are much better than in this county. The Augusta Southern Railway runs through the property and has a side track on this land. There is almost 500 acres cleared. There is probably 300 acres in one field almost level.

The tenant houses are better than anything in this county that I have seen. There are six houses. Four of them are six rooms, two four rooms. The land is sandy, with a good clay sub-soil within six inches of the top.

This place was sold by the present owners for \$15,000.00. The purchasers who were speculators went broke owing about \$15,000.00 on it and you can buy it for that sum. Now there are lots of men in this county with one or two hundred acres of land that will bring enough to pay for this place.

You can give your children a farm place and still have enough for yourself. It is in a splendid white section, good water, abundant healthy, and all right in every particular.

On the farm adjoining this, there is the finest dairy I ever saw. They were making exactly 1000 Jersey at the time I was there. Land is selling all around this at \$30.00 to \$50.00 an acre. This farm has been rented out for several years, but it is so level that they could not rent it. I have just made a trip down there to look over the place, and I think it is a great bargain.

There is still room for 1000 acres on the place. Fine road to Augusta. Good running water there in Williams River every day. This place is the same as the 5 or 6 years. Now if you have any property in Anderson County that you would like to put into this, use me at once and let me know what you want to trade for. We will give you good value for the balance.

This place is about 15 miles from Sparta, and 6 or 10 miles from Hartsville. The land looks like the land does on the road from Dalton to Sparta, Ga. 35 miles. The place is 17 miles on the road from Dalton to Sparta, Ga. 35 miles. I want a man who worked a few years on the place, but I want a man who has made 14 years of soil, and I want a man who has made 14 years of soil.

You can have the place and still have a good man to work it.

E. R. HORTON, Pres.

Anderson Real Estate & Investment Co.

We're sending this message for the purpose of advising you of the splendid preparations we have made to meet your every requirement in fall and winter footwear. We offer our customers the best shoes that America's best manufacturers can produce.
